

Antihypertensive classes

✓ **Diuretics**

hydrochlorothiazide (Microzide, Oretic, HydroDiuril), chlorothiazide (Diuril), chlorthalidone (Thalitone), indapamide (Coversyl), furosemide (Lasix), torsemide (Soaanz, Demadex), bumetanide (Bumex), spironolactone (Aldactone, Carospir), triamterene (Dyrenium), amiloride (Midamor), eplerenone (Inspra)

✓ **Beta blockers**

metoprolol (Lopressor, Toprol XL), nebivolol (Bystolic), propranolol (Inderal), acebutolol (Sectral), atenolol (Tenormin), carvedilol (Coreg)

✓ **Calcium channel blockers**

amlodipine (Katerzia, Norliya, Norvasc), nifedipine (Procardia, Adalat CC), diltiazem (Cardizem, Tiazac), verapamil (Verelan, Calan)

✓ **ACE inhibitors**

lisinopril (Carace, Zestril, Zestoreic, Prinivil), captopril (Aceril, Capozide, Capoten, Acedezi), enalapril (Innovace, Innozide, Vasotec, Enaped), trandolapril (Mavik, Tarka, Tandanopril), perindopril (Coversyl, Aceon)

✓ **Angiotensin receptor blockers**

losartan (Cozaar), valsartan (Diovan), telmisartan (Micardis), irbesartan (Avapro), candesartan (Atacand), olmesartan (Benicar)

✓ **Alpha blockers**

prazosin (Minipress), terazosin (Hytrin), doxazosin (Cardura)

✓ **Vasodilators**

hydralazine (Apresoline), minoxidil (Loniten), nitrates such as nitroglycerin (Nitrostat) and nitroprusside (Nipride RTU, NITROPRESS)

Antibiotics

✓ **Penicillins**

ampicillin (Principen), amoxicillin (Amoxil), penicillin V (Penicillin VK, Veetids), penicillin G benzathine (Bicillin L-A)

✓ **Cephalosporins**

cephalexin (Keflex), cefadroxil (Duricef), cefazolin (Ancef), cefuroxime (Zinacef), cefotaxime (Claforan), ceftriaxone (Rocephin), cefixime (Suprax), cefpodoxime, ceftazidime (Fortaz, Tazicef), cefepime (Maxipime), ceftaroline (Teflaro)

✓ **Carbapenems**

meropenem (Merrem), imipenem-cilastatin (Primaxin), doripenem (Doribax), ertapenem (Invanz)

✓ **Glycopeptides**

vancomycin (Vancocin, Firvanq)

✓ **Aminoglycosides**

gentamicin (Garamycin), streptomycin, amikacin (Amikin), tobramycin (Tobi, Kitabis Pak, Bethkis)

✓ **Tetracyclines**

tetracycline (Ala-tet), doxycycline (Adoxa, Doryx), minocycline (Dynacin, Minocin, Solodyn), demeclocycline

✓ **Macrolides**

azithromycin (Zithromax), erythromycin (EES Granules, Ery-tab, Erythrocin), clarithromycin (Biaxin XL)

✓ **Quinolones**

ciprofloxacin (Cipro), levofloxacin (Levaquin), gemifloxacin (Factive), moxifloxacin (Avelox), ofloxacin (Floxin) Bactrim and Bactrim DS contain sulfamethoxazole combined with trimethoprim
